Objet: [SAFRAN] - Identity creation for
Répondre à: no-reply@memory.com

Dear ,

We are delighted to inform you that your personal user account, to access SAFRAN applications, has been created.

The login associated with your account is:

We would like to remind you that this account is strictly personal and should not be shared with anyone. We will keep a record of each authentication attempt, including the public IP address used during the attempt, and use that information for security analyses with as aim to protect users against wrongful usages of their identities.

Please click on the activation link below to activate your account.

[Activation link](#) to reset your password.

Best Regards,

As part of the user identification and access management processes for the Safran applications based on its legitimate interest, Safran (www.safran.com) processes the name, surname, company, professional mobile phone and email address, connection logs and IP address of Safran's personnel and its clients and providers. This data will be stored for a maximum of 12 months and will be accessible by authorized persons including the central, system and domain administrators, TOM and CSO.

- This data is uploaded by the Safran administrator
- The provision of this data is mandatory to access Safran's applications.

You have rights of access, rectification, erasure, restriction, and data portability on your personal data and their processing. You also have the right to object. To exercise your rights, you can write the Data Protection Officer at safra.dpo@safran.com. You can also lodge a complaint with the French Data protection authority (www.cnil.fr).
