Request Management update

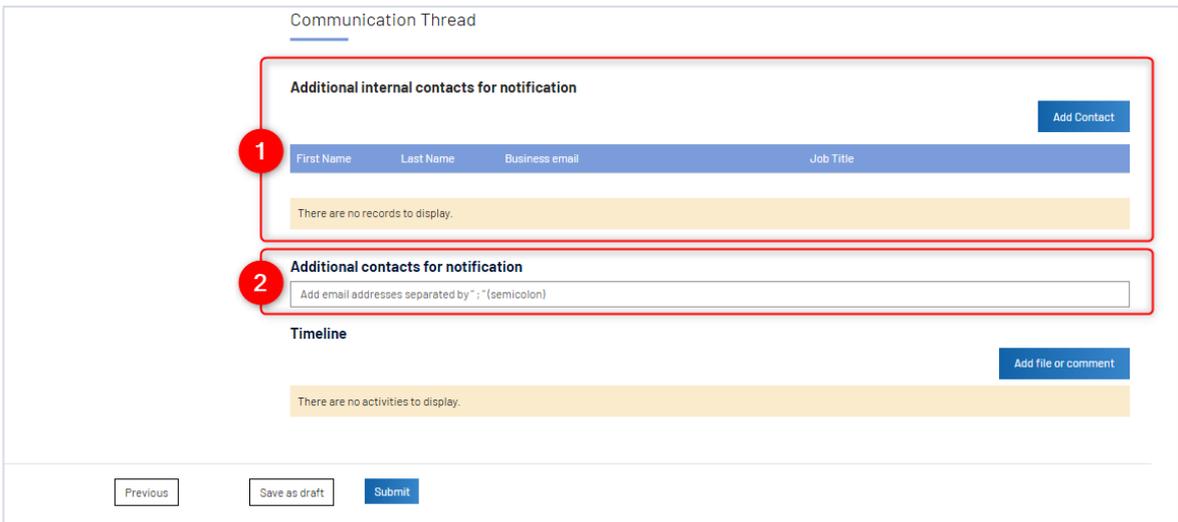

Additional contact in Request Management

Home > New Request

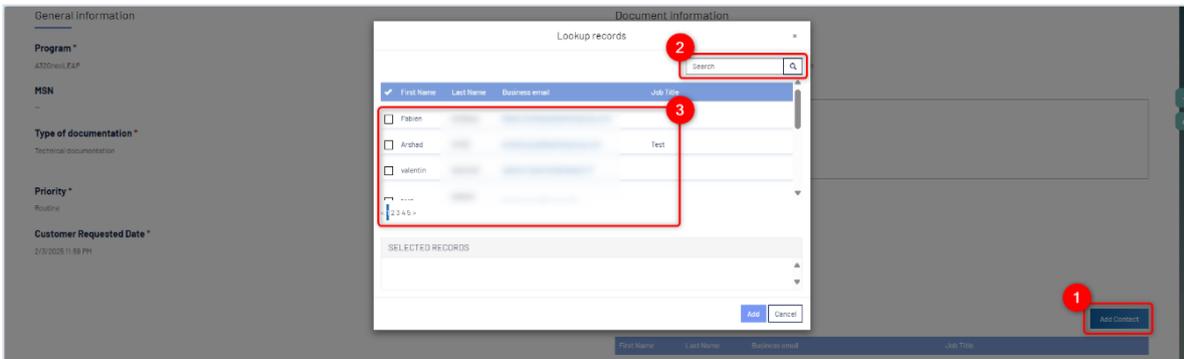

New update is about introducing a new tool for adding your internal contacts for notification in the “summary step” for all request.

From every request :

1. This is the new section, to start select “add contact”
2. This is the section you can use to add external contacts for notification

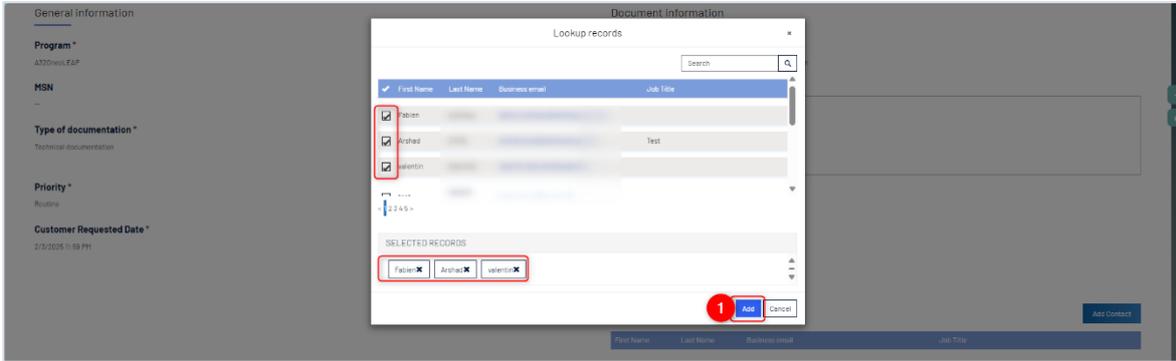

1. Select “Add contact”
2. You can search by typing your contact name
3. This is the contact list for your company, select them by clicking on the square

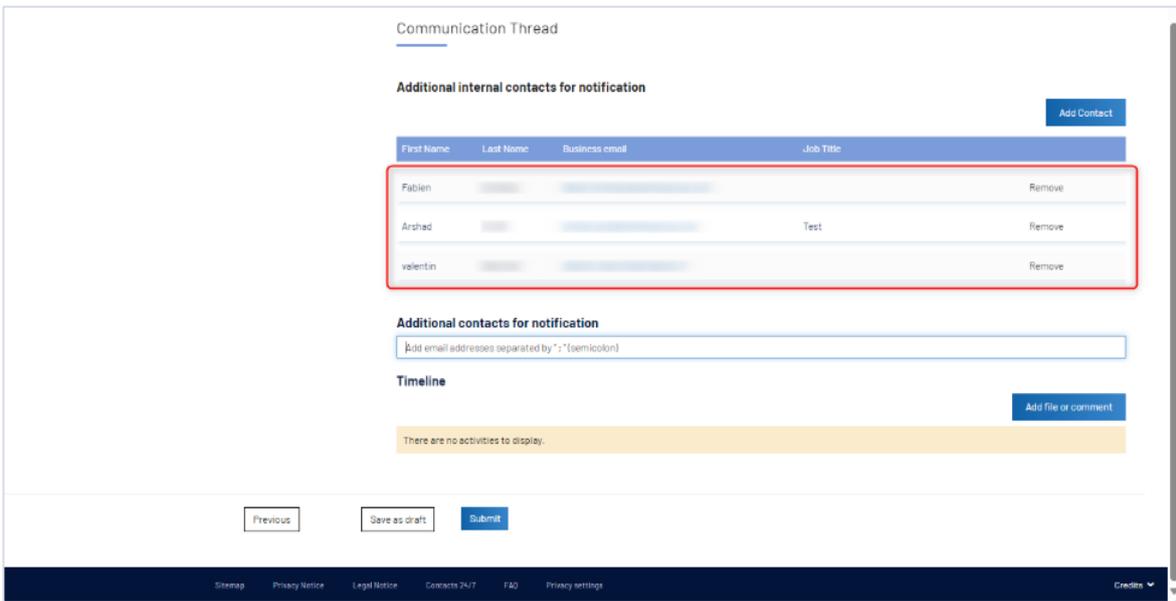

NACELLELIFE-PORTAL-UPDATE

1. Once contact are selected, click on “add”

Once it's done you will see the selected contact appear in this table

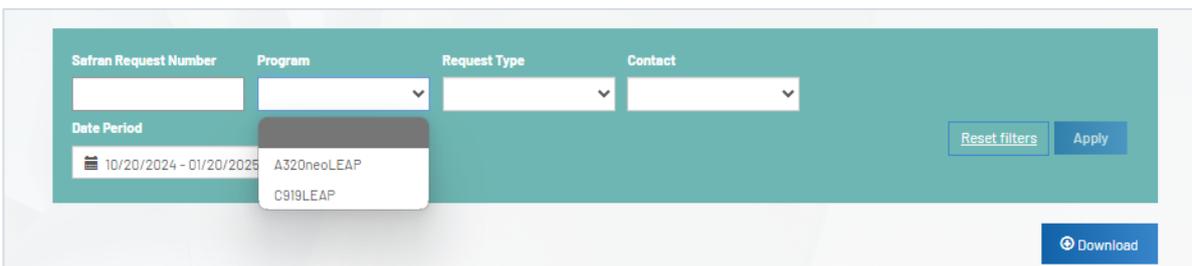

From already existing request :

Home > Request management > Select an existing request > You can now add a contact too.

Program filter in request management

Home > Request management > You can now see a « program filter »

Contact filter Update

Home > Request management > You can now see your contacts in alphabetical order

The screenshot displays a web interface for request management. At the top, there is a filter bar with the following elements:

- Safran Request Number:** An input field.
- Program:** A dropdown menu.
- Request Type:** A dropdown menu.
- Contact:** A dropdown menu currently showing an alphabetical list of names (aE, alé, All, An, Ar, Ar, Be, De, El, Fa, Gi, He, jav, Je, Je, Jo, Lo, Ma).
- Date Period:** A date range selector showing "10/20/2024 - 01/20/2025".
- Buttons:** "Reset filters" and "Apply".
- Download:** A blue button with a download icon.

Below the filter bar is a table with the following columns: "Created On", "Requested Date", "Contact", and "Status". The table contains several rows of data, with some rows having a "NG FOR DETAILS" status and a pencil icon for editing.

Created On	Requested Date	Contact	Status
9/11/2023 5:18 PM			
1/6/2025 10:18 AM	1/8/2025 9:00 AM		NG FOR DETAILS
10/31/2024 11:11 AM	11/6/2024 11:59 PM		NG FOR DETAILS
11/12/2024 9:24 AM	11/18/2024 11:59 PM		NG FOR DETAILS
9/5/2023 12:02 PM			NG FOR DETAILS
12/5/2023 4:25 PM			NG FOR DETAILS

Order Book update

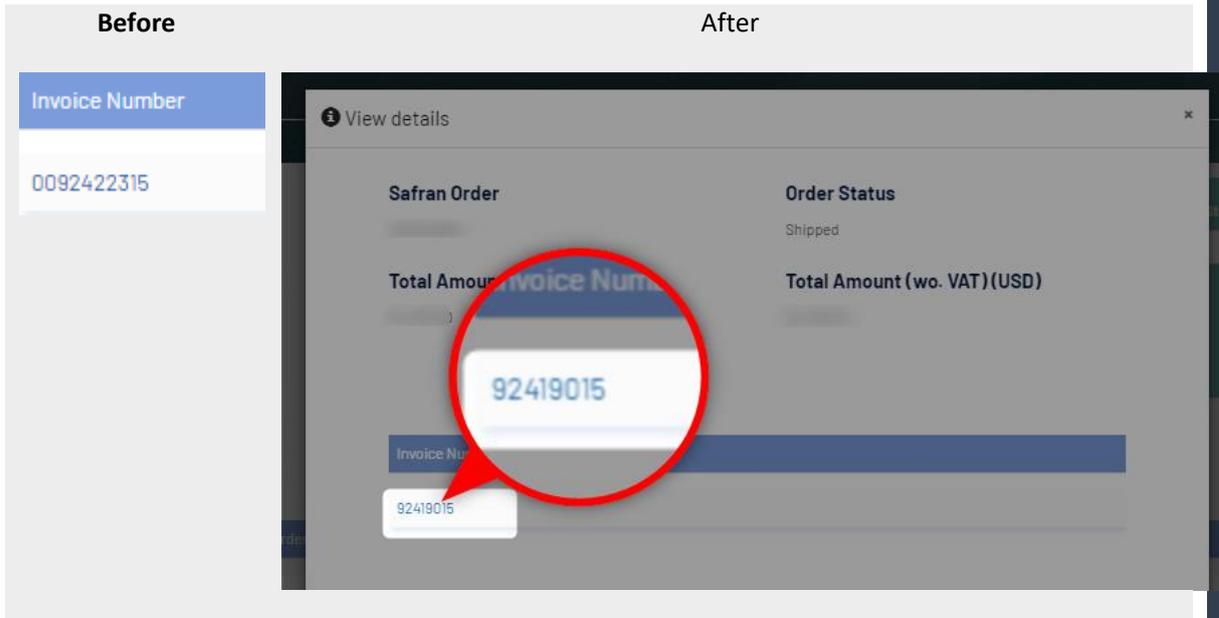

Status alignment between command and command line

Home > Order Book > Order Line view >

« 00 » removal on invoice number

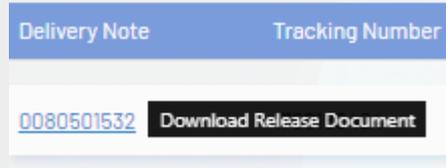

Home > Order Book > Order View > Select "Invoice" in your reference line> Invoice Number

Link removal on "Delivery note" column.

Home > Order Book > Order View > Select your reference > Select the "line" >

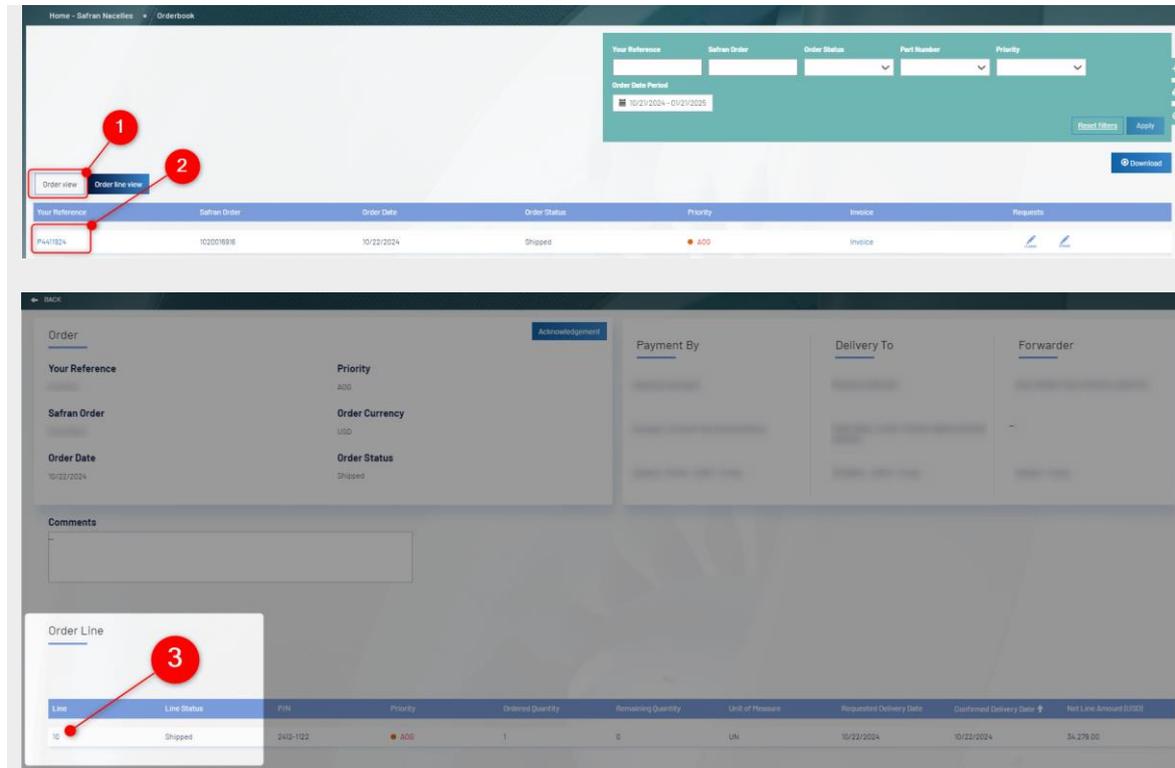

Before

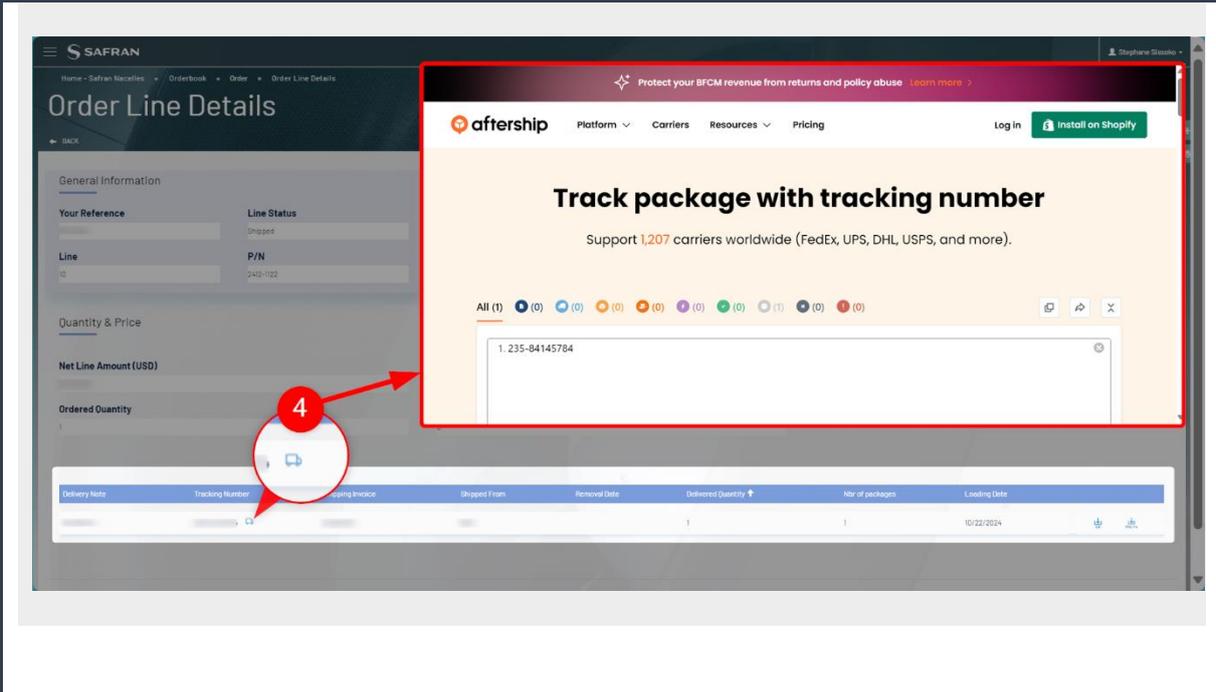

Redirection link for Tracking Number

Home > Order Book > Order View > Select your reference > Select the "line" > Click on the "Truck Icon" in the Tracking number column > You will be redirect to "Aftership"

We added a redirection link in the tracking number column, so you can now visualize the delivery status progression.
